**Montessori-Infused Curriculum** - We recognize that children have a natural desire that inspires them to reach their potential. Their inherent love of learning is stimulated when given opportunities to engage in meaningful activities with the proper balance. Our nurturing environment and stimulating curriculum allow each child to progress and experience learning infused with wonder and confidence. As a result, our tots will develop self-esteem, confidence and true creativity.

**What Makes us Unique?** We teach early childhood development through the Arts with a NEW! Montessori- Infused Curriculum including Dance, Theatre, Music, Culture and Visual Arts. Professional dancers, actors, visual artists and music teachers come in regularly to infuse and inspire learning concepts using their mediums. We welcome cultural diversity. Parents love our Arts focus, indoor and outdoor lesson environments, and creative field trips.

**Creative Learning** – At the Cultural Arts Centre, ages 3-5 have access to our classroom centre and professional Music, Theatre, Visual Arts and Dance studios. AFT Preschool also offers new themes each week, like 'Spring Science,' 'Celebrate Culture' and 'All About Me.' There are also special days like 'Hat Day,' 'Pyjama Day' and 'Teddy Bear Picnic.' Festivities include a Christmas show and 'Moving Up & Graduation' party. Creative learning now combined with our **NEW! Montessori-infused curriculum.**

**Qualified Staff** – Our experienced Directors bring out the best in *Arts4Tots* at all times to encourage and assist children in their creativity and development. Our program also gladly accepts parent volunteers to participate in our preschool and help craft a creative, safe and positive environment.

**Focused Classroom** – Tots kick off the day with circle time where they participate in today's weather, singing, ABC, 123, calendar and story time. Daily, toddlers will participate in dress up drama, art discovery, music and movement, dance, storytelling, snack time and more. Biannual progress reports let you know how your child is doing.
